

PRODUCT BULLETIN #510

CONSOLIDATION OF 8" DISC BRAKES

December 20, 2024

Dexter is consolidating its 8" disc brake product offering from various acquired brands into the Kodiak® by Dexter disc brake offering. This change will provide a more consistent, high-quality solution for 8" disc brakes. Going forward, all axles with 8" disc brakes will feature the reliable and durable Kodiak by Dexter disc brakes.

Components of any legacy brand 8" disc brakes are NOT interchangeable with Kodiak components. Therefore, legacy 8" disc brake components will only be available as service parts. Legacy brand disc brake upgrade kits will be discontinued.

Legacy brand axles from the Dexter Atlanta location can be upgraded to Kodiak disc brakes, however the entire wheel end must be replaced. Legacy UFP axles **CANNOT** be upgraded by replacing the wheel end due to the brake flange location.

This transition will begin when current inventory is exhausted.

KODIAK KITS:

K71-2H-8-2-DDDD		8" KODIAK DISC BRAKE KIT FOR ONE 2,000 LBS. AXLE, SURGE BRAKE ONLY	
2	008-HSR-BT16R-8-2-D	HUB-ROTOR, 2K, 5 ON 4.50, GAL-DEX
